## Student finance

Sweden's student finance system is one of the world's most comprehensive student finance systems. It aims to enable women and men to pursue studies after finishing school or to resume studies later in life. Student finance in the form of grants and loans is part of education policy.

[Flexibility, adaptability and security in the labour market](#)

The transition package to improve long-term flexibility, adaptability and security in the labour market is based on a proposal from the trade unions and employers within the private sector. All workers gain better opportunities for transition and skills development throughout their working life, and Sweden's competitiveness is strengthened. This involves a reformed labour law, a new student finance scheme and new basic transition and skills support.
