## Medical care

Medical care involves the measures taken to provide care for those who are ill and the development of medical and health care services. Care should be equitable, gender-equal and accessible, and offered on equal terms according to need.

Screen time's impact on the health of children and young people was on the agenda when ministers from across the Nordic region met in Stockholm on 17 April. Minister for Social Affairs Jakob Forssmed hosted the meeting, which was under the auspices of the Swedish Presidency of the Nordic Council of Ministers. The Council of Ministers also discussed how Nordic cooperation against antimicrobial resistance can be strengthened.

[Karin Tegmark Wisell appointed as Sweden's Ambassador for Global Health](#)

The Government's new reform agenda, 'Development assistance for a new era – freedom, empowerment and sustainable growth', has a particular focus on improved health for the most vulnerable people. Initiatives are needed to improve prospects of good health, ensure functioning health and medical care systems, and strengthen preparedness, in order to better address health threats at global level. Sweden has an important role to play in these efforts.

#### [National Board of Health and Welfare to assess possibility of donating medical equipment and supplies to disaster-affected or war-torn areas](#)

In response to requests – mainly from Türkiye and Syria – for support to foreign disaster-affected or war-torn areas, the Government has tasked the National Board of Health and Welfare with assessing the possibilities of providing assistance. The agency should examine what medical equipment or materials, or other supplies, may be needed to provide care, and can be donated from available stock or Sweden's regions after all domestic needs have been met. The Government is allocating SEK 45 million for this purpose.
